Lina Seiche

SPINDLE PR Manager/Evangelist

After serving as the social media manager and music journalist for a German culture magazine, Seiche made the move to Malaysia to study under GACKT, a Japanese musician. Through studying the economy, art and language, she assumed the position of chief manager for G&I Asia Bridge Partnerz, and opened the TOKYO CANDY FACTORY (<http://tokyocandyfactory.com/>) in Kuala Lumpur. At SPINDLE, she will be in charge of PR activities to the world, and will also raise product awareness.

New Team / Advisors join us

Julia Della Scala **Crypto-world PR Advisor**

After graduating from Doshisha Junior High school and High school, as well as graduating from Waseda University' s School of Political Science and Economics, Scala quit her embassy job within 3 months of joining and decided to attend and graduate from University of California San Diego. After spending time as an interpreter in the technology, medical and automotive fields, she decided to work with cryptocurrencies from May 2017. In June 2017, she successfully hosted a Meetup with Agrello/ICO. By creating her own chat groups, she began jointly investing in ICOs around the world with her group. In October 2017, she was appointed as an advisor for micromoney/ ICO and has been attending many international conferences. In February 2018, she invited and hosted a Meetup event with the North American Bitcoin conference finalist, Shoppin. Currently, she is focused on attending Bitcoin conferences in Tokyo, Hong Kong and Fintech conferences in order to build her contacts. She shares SPINDLE' s image of autonomy, and has joined SPINDLE since March 2018.

Masayoshi Hashimoto **Creative Technologist / Technology Evangelist**

Born to a family that provided electronic services to Christian and Protestant missionaries, Hashimoto learned the family trade at a young age. Since he was young, he was interested in the effects of technology on people. Hashimoto' s strength lies in his abilities to combine technologies and materials in an almost artistic yet scientific way. Through high resolution, high presence and high quality, he is able to create a world where “one can feel the virtual world in reality” . With the help of like-minded individuals, he is aiming to create a diversified workplace where people respect the background and characteristics of each other. He has worked with companies and organizations such as, Toyota, Google, NTT Docomo, Mitsubishi Residence, Nike Japan, LVMH Watch Jewellery Japan, Richemont Japan, DeBeers Group, Central Community Chest of Japan, Mori Art Gallery and other local governments and municipalities, in planning, creating and operating their VMD and brand. He also takes part in research to plan the next generation of advertisement, and has also created works nominated by judges to take part in the media festival organized by the Japanese government. After leaving Hakuodo Products, he joined SPINDLE in 2018.
